Project No. 14573-000

Notice of Preliminary Permit Application Accepted For Filing and Soliciting Comments,  
Motions to Intervene, and Competing Applications

On December 17, 2013, Siting Renewables, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Easton Dam Hydroelectric Project (Easton Dam Project or project) to be located on the Lehigh River, near Easton, Northampton County, Pennsylvania. The Easton Dam is owned by the state of Pennsylvania. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) an existing dam, reinforced with concrete in 1967, 30 feet high; (2) a 590-foot-long concrete spillway discharging into the Delaware River; (3) two channels, each with three, 500-kilowatt (kW) very low head (VLH) turbines and generators with a maximum generating capacity of 3000 kW, with a maximum hydraulic capacity of 2,300 cubic feet per second under a 30-foot gross head; (4) two new heavy flotsam racks; (5) a crest mounted walkway, carrying hydraulic and electrical conduits from the VLH turbines to a new powerhouse; (6) one hydraulic and electrical controls module; and (7) one 4,800-foot-long 12.42/7.2 kilovolt primary transmission line. The estimated annual generation of the Easton Dam Project would be 15,770,000 kilowatthours.

Applicant Contact: Mr. Ralph J. Jones, Siting Renewables, LLC, 1800 Rt. 34, Suite 101, Wall, NJ 07719; phone: (855) 946-7652.
